# Traveling through time...

Become alive to history!

Explore a world of artifacts in a multitude of museums. Learn about the Native American lifestyle.

See Civil War memorabilia. Rediscover long-forgotten Colonial treasures.

Stand inside 18th century buildings. Stroll through Colonial gardens. Board a replica of a 16th century sailing ship. Experience life on a southern plantation.

Visit one of America's first lifesaving stations – now more than 125 years old – and climb a lighthouse that's still “beaming.”

Let the kids pick up starfish, pet skates and peer at sharks swimming in an overhead aquarium. Show them fossils that are billions of years old and dig for coral, shells and shark's teeth.

Spend an afternoon walking through 400 years of interactive history exhibited in one building. See an animated pirate, “shoot” ducks from a blind and climb into the hold of a creaking “old” ship.

Taking the Historic Albemarle Tour, which winds through northeast North Carolina, is like encountering pages from a history book that teach us volumes about the present. It's a story of growth and change... of wilderness walks and uncharted horizons...a multi-dimensional register of mankind that adds to our sense of place. It shows us who we are, where we came from and where we're going.

Since 1975, the tour has helped thousands of people follow in the footsteps of Indians and colonists, soldiers and slaves, sea captains and pirates.

You, too, can **study** North Carolina's history by **seeing** it. To travel through time, just follow the signs. See you on the HAT...

Belhaven Memorial Museum

**BELHAVEN MEMORIAL MUSEUM** is like spending a day in your grandmother's attic! The City Hall, on the National Register, houses this museum that began as a private collection of Mrs. Eva Blount Way around the turn of the century. What began as a collection of buttons grew to include old coins, shells, early American kitchenware, coffee mills, furniture, old farming tools, Civil War guns, World War helmets, boots, and more to explore. We are closed on Sunday and Wednesday.

Graveyard of the Atlantic Museum

**GRAVEYARD OF THE ATLANTIC MUSEUM** in Hatteras is dedicated to preserving and interpreting the rich maritime history and culture of NC's Outer Banks. Along these shores, at the confluence of the Labrador Current and the Gulf Stream, rest two thousand shipwrecks; the North Atlantic Coast's largest concentration of German U-Boats, hundreds of passenger and cargo vessels, and thousands of tons of Allied shipping, all attesting to the vital and turbulent role seafaring has played in the development of the US. The 19,000 sq. ft. building is a stunning structure derived from ship's curves and principles of naval architecture. Located next to the Hatteras ferry landing, it is easily accessible to visitors.
